

# GRS 2020 Season

This is to inform our members that the May 2, 2020 Test & Tune and GRS registration has been cancelled by the track.

We are hoping to schedule two outdoor meetings for our members before the May 30th season opener. One in Batavia and one at Lancaster Speedway. The two meetings will reduce the number of people at each meeting for social distancing and give our members a chance to get their questions answered. Time and place will be announced when things become a little clearer as to when we can get racing. As we all know the GRS relies heavily on our sponsors to finance our business. This year will be extremely tough on all of our sponsors. We do have a Series Sponsor with B & C Paint and Restoration moving from our trophy sponsor. We also have a small number of committed associate sponsors. This is where we need our member's help. If there is any safe way that you can obtain a sponsor for the 2020 season, or if you personally would like to be a GRS sponsor, it would be extremely helpful in our quest to have another great season of racing. As always membership is free to those who become or obtain a sponsor for the GRS.

Any questions or concerns can be addressed to:  
[gasserracingseries@gmail.com](mailto:gasserracingseries@gmail.com). If you wish to send in your 2020 membership or any sponsors that you may have acquired, please send them to Gasser Racing Series, P.O. Box 267, Lockport, N.Y. 14095. The membership form is also on our web-site. Until this health issue passes, we want nothing more than for our members, and friends to be safe.

Thank you,

The GRS Board of Directors
