

Finally!!!!

The GRS finally got on the track again. Saturday was our first time to get in a points race after all the delays. We had a great showing of Gasser competition. Vito and his crew did a super job all day long. Along with the Northeast Open Comp group, there were Scott Rods "AA" Gassers putting on a burn-out show. We had the pleasure of our Series Sponsor (B&C Paint & Restoration) Bill & Trish Kilpatrick stopping by to take in some Nostalgia racing. In our Gasser final, it was "OLD School" all the way. Nick Difeo, driving his 1939 Ford Coupe, took the win over Skip Kazmark in his 1939 Chevy Coupe (Jan-Cen). In the Mod class, it was Dave Stulak in his 1972 Chevelle outlasting Paul Covell in his 1965 Belvedere. This year, thanks to NYIRP, the GRS has the opportunity to add a new race to our show. We had a First Round Loser's "Gamblers" race for those who did not want to go home early. This was a Gasser - Mod "no-points", just for fun (and a little Money) race. In the final, it was Roger Cavallaro in his 1966 Nova taking the money over Bill Quay in his 1964 Fairlane. As with all things new, our Board Members were really hustling signing up new and past members. In the end we had great weather and plenty of great racing. We now have to get a gas gauge for one of our members. Thanks to all who make the Gasser Racing Series a fun time.
